

2026 IJIS Community Forum

June 30th - July 2nd, 2026 | Cape Coral, FL

Welcome to the 2026 IJIS Institute Community Forum

The IJIS Community Forum is the IJIS Institute's premier conference and educational event that bridges the gap between technology and policy through public- and private-sector collaboration. Through the education and networking opportunities at the Community Forum, public-sector mission challenges intersect with industry innovation, policy, and operational best practices to help empower effective, innovative and efficient information-sharing that ultimately results in safer and healthier communities.

Through a focused set of discussions, practitioners, technology partners, and community stakeholders will explore practical approaches to information sharing, governance, and operational coordination that improve outcomes across emergency management, justice, public safety, substance regulation and enforcement, and effective community engagement.

Join us in celebrating twenty-five years of accomplishment! For 25 years, during an unprecedented time in modern history, the IJIS Institute and its community of contributors have provided an array of solutions, expertise, guidance, and tools to help our communities and stakeholders realize improvements in their daily lives. While the technology industry has made and continues to make great strides, our mission remains the same: to empower information sharing to promote safer and healthier communities by driving public sector technology innovation.

-----------------------	--	------------

This session will highlight two unique programs in the field and how they met similar data sharing challenges with different approaches. As it relates to New Orleans, LA, it will focus on two of the many aspects of successful implementation: strong program governance structure and processes, and data integration. Another success story to share traces how Miami-Dade Corrections & Rehabilitation — operating under nearly a decade of federal consent oversight, reeling from pandemic-era losses, and running communications on wall-mounted pay phones — used the procurement process as an instrument of transformation. Each will share their challenges and model results.

THURSDAY, JULY 2

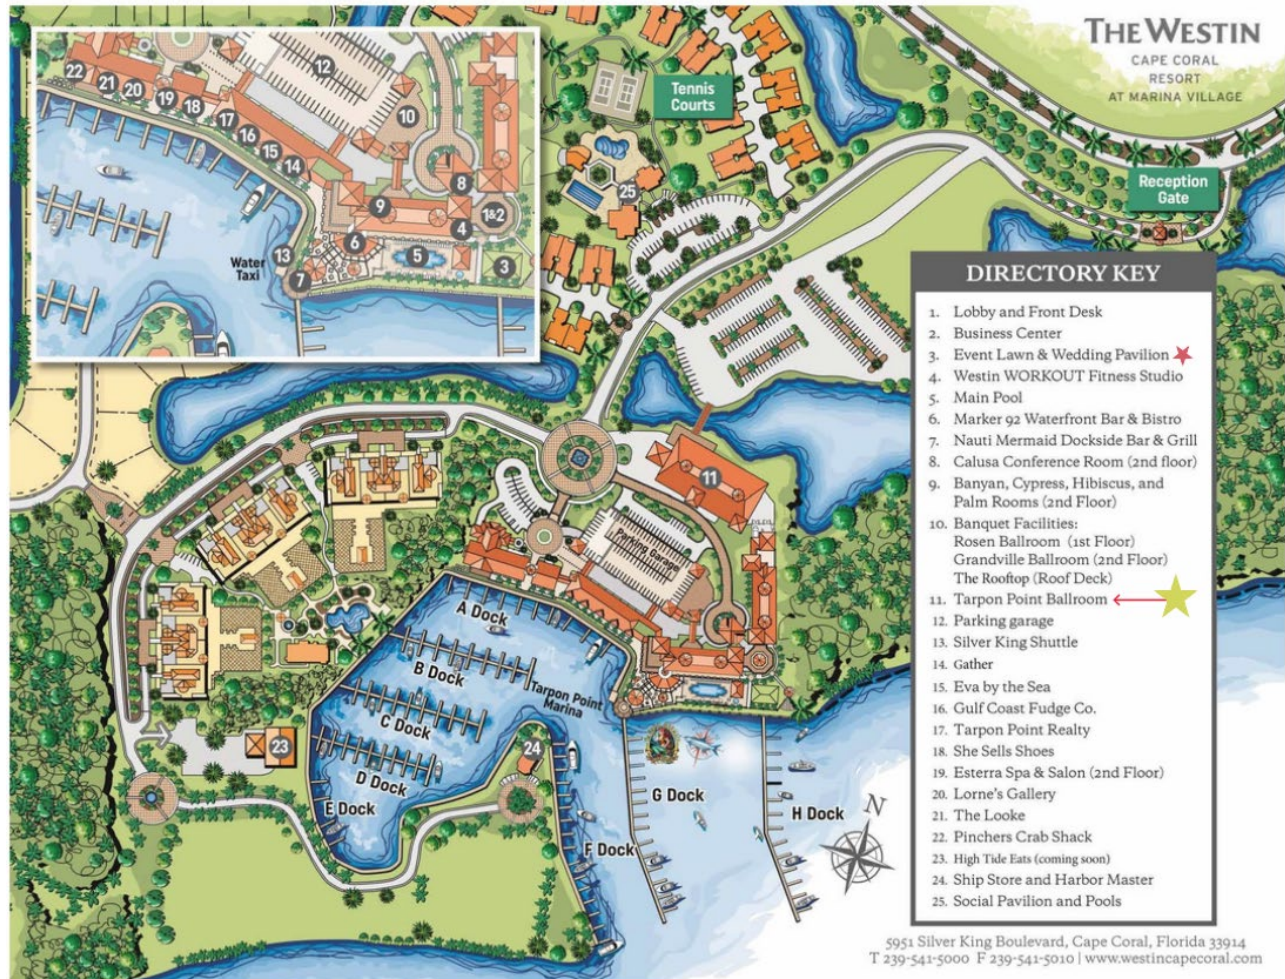

7:30 a.m. – 8:30 a.m.	Networking Breakfast	Tarpon 1
8:30 a.m. – 9:45 a.m.	Plenary Session #6 - Leadership: Ethics and Action in a Changing Environment <ul style="list-style-type: none">○ Brian Riggs, IJIS Facilitator <p>As part of the IJIS Leadership Academy, this closing session is the integrating experience of the Forum. After two days of technology, governance, and partnership conversations, attendees turn to the question underneath all of them: how do leaders decide when policy is silent, technology has outpaced governance, and the right answer is not yet clear?</p> <p>The session opens with three propositions about values-based leadership, then moves into a 60-minute workshop in which small cross-sector groups work three real-world ethical scenarios. A facilitated synthesis surfaces the decision principles the room produces together. Each attendee leaves with one 30-day commitment, witnessed by a peer.</p>	Tarpon 4-6
